Red is a Dragon

Discover shades of red, orange, yellow, green, blue, and more as a little girl finds color in all sorts of everyday things. Many of the featured objects are Asian in origin, others universal: red is the dragon in the Chinese New Year parade, green is a bracelet made of jade, and yellow are the taxis she sees on her street. With rich, boisterous illustrations and colors that leap off the page, this concept picturebook will brighten every child's day!
