Independent Auditor's Report

Board of Trustees
Lincolnwood Public Library District
Lincolnwood, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lincolnwood Public Library District as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Lincolnwood Public Library District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Lincolnwood Public Library District as of June 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lincolnwood Public Library District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lincolnwood Public Library District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing

Independent Auditor's Report

standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individual or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lincolnwood Public Library District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lincolnwood Public Library District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we have identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information on pages 4 through 6 and 23 through 25 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements. The accompanying financial information listed as Supplementary Information in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing

Independent Auditor's Report

procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects, in relation to the financial statements as a whole.

ATA Group, LLP

Management's Discussion and Analysis

Management of Lincolnwood Public Library District provides this narrative overview and analysis for the fiscal year ended June 30, 2025. It is recommended that readers consider this information in conjunction with the financial statements as a whole.

Overview of the Financial Statements

Management's discussion and analysis serves as an introduction to the District's financial statements. The statements presented include a Governmental Funds Balance Sheet and Statement of Net Position, a Statement of Governmental Fund Revenues, Expenditures, and Changes in Fund Balances and Statement of Activities, and notes to the financial statements. The District qualifies as a special-purpose government engaged in only one governmental type activity allowing it to combine the fund and government-wide financial statements. This is done through the use of an adjustment column, on the face of the statements, which reconciles the fund based financial statements to the government-wide statements.

Financial Highlights

The District's total net position as of June 30, 2025 and 2024 were \$8,496,950 and \$8,466,561, respectively. For the years ended June 30, 2025 and 2024, net position increased \$30,389 and \$283,339, respectively. The term "net position" represents the difference between total assets and total liabilities/deferred inflows of resources.

Financial Statements

The financial statements of the District are intended to provide the reader with an understanding of the financial position of the District as of the close of the fiscal year and the results of activities for the year then ended. The fund financial statements focus on current financial resources while government-wide financial statements are similar to a private-sector business.

The Governmental Funds Balance Sheet and Statement of Net Position provide information on the District's assets and liabilities/deferred inflows of resources. The difference between these two represents governmental fund balances for the current financial resources reporting and net position for the government-wide reporting. Increases in fund balances and net position occur when revenues exceed expenditures/expenses. Information is presented for each major fund or group of funds and shows any restrictions on the fund or net position.

The Statement of Governmental Fund Revenues, Expenditures, and Changes in Fund Balance and Statement of Activities reflects the results of the District's revenues, expenditures and activities during the year and the corresponding effect on fund and net position balances. This statement shows the source of District revenues and how those revenues were used to provide Library services.

Notes to the financial statements provide additional information that is essential for a full understanding of the information provided in the basic financial statements. Required Supplementary Information consists of a comparison of appropriation to actual revenues and expenditures, more information on the pension liabilities and on employer contributions to the pension.

Financial Analysis

Net position may serve, over time, as a useful indicator of a government's financial position. The District's assets exceed liabilities/deferred inflows of resources by \$8,496,950 as of the close of the year. Of the net position balance, \$454,782 is restricted, \$3,766,417 is unrestricted and \$4,275,751 is the net investment in capital assets.

Management's Discussion and Analysis

Condensed Statement of Net Position

	June 30,	
	2025	2024
Current Assets	\$ 5,905,821	\$ 5,492,609

Net Position, End of Year	\$ 8,496,950	\$ 8,466,561

Management's Discussion and Analysis

The following is a summary of changes in fund balances for the year ended June 30, 2025:

Governmental Funds	Fund Balance June 30, 2024	Increase (Decrease)	Fund Balance June 30, 2025
General	\$ 2,450,440	\$ (3,847)	\$ 2,446,593
Building Maintenance	203,829	94,112	297,941
Social Security	131,423	4,065	135,488
Liability Insurance	16,918	585	17,503
Audit	1,790	2,060	3,850
Special Reserve	1,017,848	172,878	1,190,726
	<u>\$ 3,822,248</u>	<u>\$ 269,853</u>	<u>\$ 4,092,101</u>

During the fiscal year, the General Fund transferred \$300,000 to the Special Reserve Fund.

Budgetary Highlight

The District's General Fund expended \$2,802,649, which was \$1,261,449 less than the final appropriation of \$4,064,098.

Capital Assets and Debt Administration

The following is a summary of capital assets on June 30:

	2025	2024
Land	\$ 829,514	\$ 829,514
Sculpture	18,000	18,000
Land Improvements	650,777	650,777
Building and Improvements	7,898,837	7,857,274
Furniture and Equipment	730,373	671,492
Computer Equipment	86,455	89,155
Books and Other Library Materials	955,374	923,969
Cost of Capital Assets	11,169,330	11,040,181
Less Accumulated Depreciation	<u>5,885,887</u>	<u>5,428,696</u>
Net Capital Assets	<u>\$ 5,283,443</u>	<u>\$ 5,611,485</u>

Significant capital asset purchases during the year include HVAC equipment, a puppet theater, and furniture. Note 4 on page 15 contains more detail on capital assets. During the year, the District retired \$185,000 in debt certificates bringing the outstanding balance to \$1,000,000. Note 5 on pages 15 and 16 contains more details.

Description of Current or Expected Conditions

Presently, management is not aware of any changes in conditions that could have a significant effect on the financial position or results of activities of the District in the near future.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in its finances. Questions concerning any of the information provided in this report or request for additional financial information should be addressed to the Library Director, Lincolnwood Public Library District, 4000 W. Pratt Avenue, Lincolnwood, Illinois 60712-3531.

The accompanying notes are an integral part of these financial statements.

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies

The financial statements of Lincolnwood Public Library District (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The District's reporting entity includes all entities for which the District exercised oversight responsibility as defined by the Governmental Accounting Standards Board (GASB).

The District has developed criteria to determine whether outside agencies should be included within its financial reporting entity. The criteria include, but are not limited to, whether the District (1) selects the governing authority or management, (2) has the ability to significantly influence operations, or (3) has accountability for fiscal matters (e.g., final budget approval, responsibility for funding deficits, management of assets, etc.). Using these criteria, the District has not included in its financial statements the activities of any other entity.

B. Basis of Presentation

The government-wide and fund financial statements are combined, with a reconciliation shown between them. The Governmental Funds Balance Sheet and Statement of Net Position and Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and Statement of Activities combines information about the reporting government as a whole and funds statements to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District functions or activities.

Major individual governmental funds are reported as separate columns in the fund financial statements. The major funds are the general fund and special reserve fund. Following is a description of the major and non-major funds.

General Fund Type - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund Type - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. The special revenue funds of the District are: Building Maintenance, Social Security, Liability Insurance and Audit.

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Capital Projects Fund Type - Used to account for the acquisition of capital assets or construction of major capital projects. The Special Reserve Fund is used in this fund type.

C. Basis of Accounting

The government-wide statements (the Statement of Net Position and the Statement of Activities) are prepared using the economic resources measurement focus and the accrual basis of accounting. Fund financial statements (the Governmental Funds Balance Sheet and Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances) are prepared using the current financial measurement focus and are accounted for using the modified accrual basis of accounting. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Typically, Cook County has accelerated collections of taxes so that a substantial amount of property taxes receivable at year end are now collected within 60 days after year end. The District has not treated these funds as being available for the year ended June 30, 2025, and the District has designated the second installment for the subsequent year budget. As such, the entire property tax receivable at year end has been treated as deferred inflows of resources.

The District reports deferred inflows of resources on its balance sheet and statement of net position. Deferred inflows of resources arise when potential revenue does not meet both the “measurable” and “available” criteria for recognition in the current period. Deferred inflows of resources also arise when the District receives resources before it has a legal claim to them. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the deferred inflows of resources is removed from the balance sheet and statement of net position and revenue is recognized.

D. Budgets

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the general and special revenue funds. All annual appropriations lapse at fiscal year end. Project-length financial plans are adopted for all capital projects funds.

E. Cash and Cash Investments

Cash includes amounts in a demand deposit account and in a NOW account.

Illinois Revised Statutes authorize the District to invest in securities guaranteed by the full faith and credit of the United States of America, interest-bearing savings accounts, certificates of deposit or any other investments constituting direct obligations of any

Note 1: Summary of Significant Accounting Policies (Continued)

bank as defined by the Illinois Banking Act, the State Treasurer's investment pool (authorized by ICLS 30, 235-2, e), and other permitted investments under paragraph 902, chapter 85 of the Statutes as amended by Public Act 86-426. Investments may only be made in banks which are insured by the Federal Deposit Insurance Corporation.

Investments are stated at cost, which approximates fair market value. Investments consist of The Illinois Funds (fair value equals value of pool shares). Oversight of The Illinois Funds is performed by the State of Illinois Treasurer's office.

F. Capital Assets

The accounting treatment over property, plant, and equipment (capital assets) depends on whether the assets are reported in the government-wide or fund financial statements.

Government-wide Statements

In the government-wide financial statements capital assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated capital assets, which are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Land Improvements	10-20 years
Building and Improvements	5-40 years
Furniture and Equipment	5-20 years
Computer Equipment	3-5 years
Books and Other Library Materials	6-7 years

The minimum capitalization threshold is any item with a total cost greater than \$2,500, except for books and other library materials.

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

G. Compensated Absences

In June, 2022, the GASB issued Statement No. 101, *Compensated Absences*. This Statement requires that liabilities for compensated absences be recognized in financial statements prepared using the economic resources measurement focus for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or

Note 1: Summary of Significant Accounting Policies (Continued)

otherwise paid in cash or settled through noncash means. This standard was implemented July 1, 2024.

It is the District's policy to permit employees to accumulate earned but unused vacation pay benefits. No liability is reported for unpaid accumulated sick leave, since most employees with accumulated sick leave are covered by the District's pension plan (IMRF) and these hours can be converted to IMRF credit upon retirement and are excluded from the GASB 101 calculation. Vacation pay that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a current liability in the government-wide statements.

H. Deferred Outflows and Inflows of Resources

Deferred outflows of resources related to pension expense represent amounts related to the differences between expected and actual experience, changes in assumptions and the net difference between projected and actual earnings on pension plan investments and post measurement date payments.

Deferred inflows relating to property taxes do not fit the definition of a liability, that is, the use of resources to satisfy an obligation. Rather deferred property taxes represent a future recognition of revenue, therefore are classified as deferred inflows of resources.

I. Interfund Transactions

Interfund transfers between the General Fund and the Special Reserve Fund are reported as operating transfers. The purpose of these transfers is to accumulate resources for future capital acquisitions.

J. Fund Equity

The District follows GASB statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Non-spendable fund balance – amounts that are not in a spendable form (such as inventory), and prepaid expenses, or are required to be maintained intact;
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance – amounts constrained to specific purposes by a government itself, using its highest-level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint;

Note 1: Summary of Significant Accounting Policies (Continued)

- Assigned fund balance – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance – amounts that are available for any purpose; positive amounts are reported only in the general fund.

The board of trustees establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balance is established by the board of trustees or management through adoption or amendment of the budget as intended for specific purpose.

When fund balance resources are available for a specific purpose in more than one classification, it is the District's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

K. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

L. Long-Term Obligations

In the government-wide financial statements, long-term debt is reported as a liability in the statement of net position. Bond premiums are deferred and amortized over the life of the bonds using a weighted average. Bonds payable are reported including the applicable bond premium.

M. Defined Benefit Pension Plan (IMRF)

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Illinois Municipal Retirement Fund (IMRF) and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

N. Interest Income Allocation

The District does not allocate interest income to the Special Reserve Fund.

Notes to Financial Statements

Note 2: Deposits and Investments

Deposits. At year-end, the carrying amount of the District's deposits, excluding petty cash of \$300, was \$541,742 and the bank balance was \$610,601. The entire bank balance was covered by federal depository insurance (\$388,459) and collateral with securities held by pledging institution's agent in the District's name (\$222,142).

Investments. The District has investments in the Illinois Funds. The monies invested by the individual participants are pooled together. The Illinois Funds complies with Illinois law and is limited to the following investments: Direct United States Treasury obligations and issues of United States Agencies or Instrumentalities, agreements to repurchase United States Treasury obligations and issues of United States Agencies or Instrumentalities, Commercial Paper rated A1, P1 or equivalent, and AAA rated Money Market Funds. The funds are readily available to the District on demand which thereby reduces any interest rate risk to a negligible level. The Illinois Funds is an "AAAmmf" rated fund. The carrying amount of deposits in The Illinois Funds at June 30, 2025 was \$3,621,704.

Note 3: Property Taxes

Property taxes for 2024 attached as an enforceable lien on property as of January 1, 2024. They were levied in November 2024 by passage of a Tax Levy Ordinance. Taxes are generally payable in two installments on or around March 1 and August 1 (later this year). As such, significant tax monies are received in February, March, July and August (later this year). The County of Cook collects such taxes and remits them periodically during the period of February 2025 through January 2026. The second installment of the 2024 property tax levy is recorded as a receivable and deferred inflows of resources at June 30, 2025 net of estimated uncollectibles. The District has provided an allowance for uncollectible real property taxes equivalent to 3% of the current year's levy. All uncollected taxes relating to prior years' levies have been written off. The second installment will be used for year ending June 30, 2026 operations and is reflected as deferred inflows of resources at June 30, 2025.

Notes to Financial Statements

Note 4: Capital Assets

Capital asset activity for the year ended June 30, 2025 was as follows:

	Balance June 30, 2024	Increases	Decreases	Balance June 30, 2025
Capital assets, not being depreciated				
Land	\$ 829,514	\$ -	\$ -	\$ 829,514
Sculpture	18,000	-	-	18,000
Total capital assets not being depreciated	847,514	-	-	847,514
Capital assets, being depreciated

Total capital assets being depreciated, net	4,763,971	(328,042)	-	4,435,929
Capital assets, net	\$ 5,611,485	\$ (328,042)	\$ -	\$ 5,283,443

Note 5: Long-Term Liabilities

Debt Certificates to a Bank. The District issued debt certificates in 2016 to provide funds to finance a renovation project at the library. The debt certificates have been designated as term certificates and have mandatory sinking fund payments due through November 1, 2029. There was a call option on November 1, 2024.

Changes in long-term liabilities consists of the following debt certificates:

	Balance July 1, 2024	Additions	Reductions	Balance June 30, 2025	Amounts Due In One Year
\$2,490,000 thirteen-year debt certificates dated May 3, 2016 with interest rates of 3.0%.	\$ 1,185,000	\$ -	\$ (185,000)	\$ 1,000,000	\$ 190,000
Plus (Minus) Deferred Amounts					
For Issuance Premium	10,959	-	(3,267)	7,692	2,740
	1,195,959	-	(188,267)	1,007,692	\$ 192,740
Net Pension Liability	474,666	47,375	-	522,041	
	\$ 1,670,625	\$ 47,375	\$ (188,267)	\$ 1,529,733	

Notes to Financial Statements

Note 5: Long-Term Liabilities (Continued)

Annual debt service requirements to maturity for debt certificates, including interest, are as follows:

Year Ending June 30,	Principal	Interest	Total	Interest Rate
2026	\$ 190,000	\$ 27,150	\$ 217,150	3.00%
2027	195,000	21,375	216,375	3.00%
2028	200,000	15,450	215,450	3.00%
2029	205,000	9,375	214,375	3.00%
2030	210,000	3,150	213,150	3.00%
Total	<u>\$ 1,000,000</u>	<u>\$ 76,500</u>	<u>\$ 1,076,500</u>	

Note 6: Defined Benefit Pension Plan

On July 1, 2022, the District began participating in IMRF.

IMRF Plan Description. The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided. IMRF has three benefit plans. The District participates in the Regular Plan (RP). All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, by a participating employer, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum

Notes to Financial Statements

Note 6: Defined Benefit Pension Plan (Continued)

of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms. As of December 31, 2024, the following employees were covered by the benefit terms:

	IMRF
Retirees and Beneficiaries currently receiving benefits	1
Inactive Plan Members entitled to but not yet receiving	13
Active Plan Members	20
Total	<u>34</u>

Contributions. As set by statute, the District's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2024 was 9.57%. For the fiscal year ended June 30, 2025 the District contributed \$107,150 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability. The District's net pension liability was measured as of December 31, 2024. The total pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The following are the methods and assumptions used to determine total pension (asset) liability at December 31, 2024:

- The *Actuarial Cost Method* used was Entry Age Normal.
- The *Asset Valuation Method* used was Market Value of Assets.
- The *Inflation Rate* was assumed to be 2.25%.
- *Salary Increases* were expected to be 2.85% to 13.75%, including inflation.
- The *Investment Rate of Return* was assumed to be 7.25%.
- *Projected Retirement Age* was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2023 valuation according to an experience study from years 2020 to 2022.
- The IMRF-specific rates for *Mortality* (for non-disabled retirees) were developed from the Pub-2010, Amount Weighted, below-median income, General, Retiree, Male (adjusted 108%) and Female (adjusted 106.4%) tables with future mortality improvements projected using scale MP-2021.
- For *Disabled Retirees*, the Pub-2010, Amount-Weighted, below-median income, General Disabled Retiree, Male and Female (both unadjusted) tables were used with future mortality improvements projected using scale MP-2021.

Note 6: Defined Benefit Pension Plan (Continued)

- For Active *Members*, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables were used with future mortality improvements projected using scale MP-2021.
- There were no benefit changes during the year.

A detailed description of the actuarial assumptions and methods can be found in the December 31, 2024 Illinois Municipal Retirement Fund annual actuarial valuation report.

The *long-term expected rate of return* on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2024:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Equities	33.5%	4.35%
International Equities	18.0	5.40%
Fixed Income	24.5	5.20%
Real Estate	10.5	6.40%
Alternative Investments	12.5	4.85-6.25%
Cash Equivalents	<u>1.0</u>	3.60%
Total	<u>100.0%</u>	

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.25%; the municipal bond rate is 4.08%; and the resulting single discount rate is 7.25%.

Notes to Financial Statements

Note 6: Defined Benefit Pension Plan (Continued)

Changes in the Net Pension Liability.

	Total Pension Liability (A)	Plan Fiduciary Net Position (B)	Net Pension Liability (A) – (B)
Balances at December 31, 2023	\$ 1,039,305	\$ 564,639	\$ 474,666

Balances at December 31, 2024	\$ 1,242,933	\$ 720,952	\$ 522,041

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the plan's net pension liability, calculated using a Single Discount Rate of 7.25%, as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher:

	1% Lower (6.25%)	Current (7.25%)	1% Higher (8.25%)
Net Pension Liability	\$ 631,404	\$ 522,041	\$ 444,442

Notes to Financial Statements

Note 6: Defined Benefit Pension Plan (Continued)

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions. For the year ended December 31, 2024, the District recognized pension expense (income) of \$176,031. At December 31, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Deferred Amounts Related to Pensions</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Deferred Amounts to be Recognized in Pension Expense in Future Periods		
Differences between expected and actual experience	\$ 724,520	\$ 55,874
Changes of assumptions	-	9,270
Net difference between projected and actual earnings on pension plan investments	<u>29,291</u>	<u>-</u>
Total Deferred Amounts to be recognized in pension expense in future periods	753,811	65,114
Pension Contributions made subsequent to the Measurement Date, through June 30, 2025	<u>49,486</u>	<u>-</u>
Total Deferred Amounts Related to Pensions	<u>\$ 803,297</u>	<u>\$ 65,144</u>

Deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date were \$49,486. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

<u>Year Ending December 31</u>	<u>Net Deferred Outflows/(Inflows) of Resources</u>
2025	\$ 116,274
2026	116,275
2027	113,379
2028	112,251
2029	106,127
Thereafter	<u>124,361</u>
Total	<u>\$ 688,667</u>

Note 7: Other Post-Employment Benefits

a. Plan Description

In addition to providing the pension benefits described, the District postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions, and any employer contributions are governed by the District and can be amended by the District through its personal manual. The plan does not issue a separate report. The activity of the plan is reported in the District's governmental activities. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statements No. 75.

Note 7: Other Post-Employment Benefits (Continued)

b. Benefits Provided

The District provides OPEB to its retirees. To be eligible for benefits, an employee must qualify for retirement benefits under the District's retirement plan or meet COBRA requirements.

All health care benefits are provided through the District's health insurance plan. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental, nervous, and substance abuse care; vision care; dental care; and prescriptions. Eligibility in library sponsored health care plans is discontinued upon eligibility for federally sponsored health care benefits. Retirees pay the full premium to continue in the plan; however, the premium is a blended premium, not an age adjusted premium, which creates an implicit benefit as defined by GASB Statement No. 75.

c. Total OPEB Liability

The District has undertaken an actuarial valuation and the OPEB liability at June 30, 2025 is deemed immaterial with respect to the financial statements taken as a whole.

Note 8: Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. Settlements did not exceed coverage during the year.

Note 9: Jointly Governed Organization

The District participates in Cooperative Computer Services (CCS). CCS is an intergovernmental instrumentality formed by library members of the former North Suburban Library System and exists to administer a jointly owned integrated library automation system. CCS's governing board is comprised of one member from each participating library. No participant has any obligation, entitlement, or residual interest in CCS. In order to terminate membership in CCS, member libraries must provide one-year notice of termination. The District's expenditures to CCS for the year ended June 30, 2025 were \$58,366. The District received \$5,316 in grant passthrough funds during the year as well.

Notes to Financial Statements

Note 10: Adjustments

Amounts reported in the statement of net position are different from the governmental funds balance sheet because:

Capital assets used in governmental activities are not financial resources and therefore are not capitalized in the funds.	\$ 5,283,443
Deferred outflows, net, related to IMRF pension	738,153
Accrued compensated absences are recognized in governmental activities as they accrue.	(82,014)
Interest payable is recognized in governmental activities as it accrues.	(5,000)
Long-term liabilities are not due and payable in the current period and therefore they are not reported in the governmental funds balance sheet:	
Debt Certificates	(1,000,000)
Issuance Premium	(7,692)
Net Pension Liabilities	<u>(522,041)</u>
	<u>\$ 4,404,849</u>

The governmental funds report capital outlays as expenditures. In the statement of activities, the cost of these assets is allocated over their estimated useful lives as depreciation expense. The amount by which depreciation exceeded capital outlays is \$328,042 (\$574,674 less \$246,632). Also, there is a change in accrued compensated absences of \$31,733. Furthermore, there was a change in accrued interest payable of \$925, amortization of debt premium of \$3,267, and a debt certificate payment of \$185,000. Finally, with respect to participation in the IMRF pension a net decrease in net assets of \$68,881.

SCHEDULE OF EMPLOYER PENSION CONTRIBUTIONS

Calendar Year Ended December 31,	Actuarially Determined Contribution	Actual Contribution	Contribution Deficiency (Excess)	Covered Valuation Payroll	Actual Contribution as a Percentage of Covered Valuation Payroll
2022	\$ 51,016	\$ 51,016	\$ -	\$ 505,106	10.10%
2023	99,950	99,950	-	989,601	10.10%
2024	108,878	108,878	-	1,137,705	9.57%

Summary of actuarial methods and assumptions used in the calculation of the 2024 contribution rate*

Valuation Date: Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2024 Contribution Rates:

<i>Actuarial Cost Method:</i>	Aggregate entry age normal
<i>Amortization Method:</i>	Level percentage of payroll, closed
<i>Remaining Amortization Period:</i>	19-year closed period
<i>Asset Valuation Method:</i>	5-year smoothed market; 20% corridor
<i>Wage Growth:</i>	2.75%
<i>Price Inflation:</i>	2.25%
<i>Salary Increases:</i>	2.75% to 13.75%, including inflation
<i>Investment Rate of Return:</i>	7.25%
<i>Retirement Age:</i>	Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2020 valuation pursuant to an experience study of the period 2017 to 2019.
<i>Mortality:</i>	For non-disabled retirees, the Pub-2010 Amount-Weighted, below-medial income, General, Retiree, Mail (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount- Weighted, below- median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and figure mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

Other Information:

Notes: There were no benefit changes during the year.

* Based on Valuation Assumptions used in the December 31, 2022, actuarial valuation; note two year lag between valuation and rate setting.

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information is presented for those years for which information is available.
